EXAM PREPARATION WORKSHOPS

B.A.C - OCTOBER 20TH

PREPARING FOR WRITING AND WRITING FOR FUN: HOW TO HELP LEARNERS BECOME SUCCESSFUL ACHIEVERS

Writing is not a skill we acquire naturally. In our mother tongue it also needs to be taught and we should receive instruction. Unless learners are explicitly taught how to write in the new language, their writing skills are likely to get left behind as their speaking progresses. One of the challenges teachers face in the classroom has to do with getting our students to write. Usually students do not want to write, because they have never been encouraged to enjoy it or to embark on written tasks with confidence. In this talk we'll explore how to raise learners' awareness of genre, conventions, text organization and content and we'll focus on ideas which concentrate on preparation ideas to experiment in the classroom.

GETTING READY FOR THE ORAL EXAM: HOW TO ROCK SPEAKING!

One of our students' main worries is how to "sound natural" within the restricted context of a ten-minute oral exam. They have trouble showing how much they can do and often get frustrated very easily when they should actually be enjoying communication in the target language. In this workshop we will look at different strategies to help them acquire confidence and look at common areas of concern so that we can help them make the most of the assessment instance.
