### MEET S.E.N (Special Educational Needs)

Much has been said about meeting students' needs but the mixed-ability paradigm has changed all over the world. And we, teachers, should get acquainted with these changes so as to implement effective strategies. In this workshop, we will explore the implications of special needs such as ADD, Dyslexia and Autism, and will analyse possible accommodations.

### BRINGING THE DIGITAL WORLD INTO THE CLASSROOM

Nowadays, most EFL books provide different types of online or digital materials to supplement their more 'traditional' contents. How useful are these materials? Are they meant for teachers, for students? In this session we will deal with these issues and work out different ways in which such an assortment of platforms, CD Roms and digital tools can help us enhance our lessons.
